

HAL1- Lifting eyes (clutch) with loop

Ring clutch with wire cables for manual release.
Finishing : Zinc Plated

The HAL1 Lifting clutches are made of an age resistance high quality steel. They are designed with a safety factor of x 5 the working load. When used in conjunction with the 2- Hole anchors and cast in into the concrete there is a safety factor of at least x 3 the working load. The loop is produced of zinc solid wire rope.

Testing each hook before delivery, all hooks are delivered with certificate

HAL1 Zinc Plated	Load group tonnes	Anchors tonnes	Dimensions mm			Weight Kg/pc
			C	A	L
