

HAL2 Lifting eyes (ring clutch)

Ring clutch with shakel for manual release.
Finishing : Zinc Plated

The HAL Lifting clutches are made of an age resistance high quality steel. They are designed with a safety factor of x 5 the working load.

When used in conjunction with the 2- Hole anchors and cast in into the concrete there is a safety factor of at least x 3 the working load.

Testing each hook before delivery, all hooks are delivered with certificate

| HAL2 Zinc Plated | Load group tonnes | Anchors tonnes | Dimensions mm | | | Weight Kg/pc |
|---------------------|----------------------|-------------------|---------------|-----|----|-----------------|
| | | | L | B | C | |
| HAL2-025 | 2,5 | 0,7 - 2,5 | 265 | 70 | 27 | 1,80 |
